

# Route Management APPRENTICESHIP

## ROUTE MANAGEMENT APPRENTICESHIP

Whether you're working alongside welders, rewiring plasma machines or doing electrical wiring for a new factory, installation of a diesel engine or building a trailer from scratch an apprenticeship with SA Truck bodies is not to be missed. While studying towards various trades, you'll have the chance to gain in-depth and on-the-job training at undoubtedly—the most well-known certified trailer and allied product manufacturer in Southern Africa.

As an apprentice you will follow a training program especially designed for the specific trade you entered into. You will rotate between different departments throughout SA Truck Bodies and affiliated companies.

## VISION

We aim to educate, train, empower and produce workforce ready employees in the field of welding vehicle body building.

## MISSION

Achieving excellence and precision through lifelong learning and advanced development

## BACKGROUND

The training centre started in 2007 with the dream of developing skilled workers for SA Truck Bodies as well as contributing to the community that we operate in.

We have been accredited with Merseta and offer courses in basic and advanced welding including OAW, SMAW, GMWA courses and more. In 2011 we were also accredited as a decentralised trade test centre with NAMB. We are also very proud to be the first training provider in the country to offer a full apprenticeship in vehicle body building.
